2018-2019

SEMESTER 1

The Quality Assurance and Accreditation Center (QAAC) was established at the University of Bahrain to ensure and enhance the academic standards of teaching and learning across the University. Since 1999, the University has operated a Continuous Quality Improvement (CQI) approach to quality assurance and accreditation. In 2009, the QAAC was established to play a key role in the development, monitoring and reporting across the University. The QAAC implements a holistic, systematic evidence-based quality assurance and accreditation approach covering: institutional quality assurance and accreditation, academic programs and related institutional aspects in order to provide the students with best possible academic programs and services to learn and excel. Additionally, the Center operates a number of independent surveys and evaluation systems to provide valuable and essential information for improvement and development.

INTRODUCTION

The University of Bahrain is committed to transparency and accountability in support of its goal to provide world-class teaching and learning. Student feedback is an essential element in the continuous quality improvement (CQI) system that the University has established. The courses evaluation survey provides an institutional system for collecting feedback on key elements of teaching, learning and students experience. Feedback is obtained and utilized to improve academic courses and programs, learning environment, and teaching and learning. By publishing this report, we are committed to:

- Promoting public accountability
- Seeking to improve academic programs and services
- Encouraging quality and excellence

HOW DOES IT WORK

Each semester students rate the quality of our courses. Since 2016, the evaluation of courses has been conducted electronically via the Student Information System (SIS). In contrast to the classical paper-based course evaluation systems, this electronic system improved the flexibility of the evaluation by allowing students to undertake the survey anywhere and at any given time during the courses evaluation survey period.

During the evaluation period, the students rate each course (section) they are enrolled in. The results of each section is aggregated and a report for the section is generated. The aggregated results are grouped per faculty members to correlate the evaluation results with the performance of faculty members. Due to the nature of this evaluation, the identities of the students who participated in the course's evaluation survey are kept anonymous. All data is confidential and only aggregated data is made available for improvement purposes. Every faculty member will be able to view their evaluation results. Additionally, Head of Departments and Deans are granted access to view the results for their faculty members.

In addition to the online results available via SIS, this report provides overarching information about the first semester 2018 - 2019 courses evaluation.

EVALUATION RESULTS
