BACKGROUND AND OBJECTIVES

The Student Exit Survey is administered to all graduating students from undergraduate and postgraduate programs.

The survey is designed to assist the university in assessing students' perceptions of the quality of its student learning and program effectiveness.

The survey results are used to provide information to the University, Colleges and specific program areas on the quality of their functioning. The results are evaluated annually, to provide the basis for decision-making and continuous improvement at different level.

METHODOLOGY

The Student Exit Survey is designed and administered by the Quality Assurance and Accreditation Centre (QAAC).

When students apply to graduate, they are required to complete an exit survey as a part of the Application for Degree process.

Two versions of the survey are administered, for undergraduate students and postgraduate students, respectively.

The results of the survey are presented in a report, which is published on the QAAC website. In addition, detailed survey data related to each programs offered at UoB are distributed to the Colleges for detailed analysis and evaluation of college and programs performance.
